

**Amendments to the Claims**

Please add new Claims 62-63. The Claim Listing below will replace all prior versions of the claims in the application:

**Claim Listing**

- 1-52. (Canceled)
53. (Previously Presented) A humanized immunoglobulin or antigen-binding fragment thereof having binding specificity for  $\alpha 4\beta 7$  integrin comprising a heavy chain and a light chain, wherein said heavy chain comprises the variable region of SEQ ID NO:19 and said light chain comprises the variable region of SEQ ID NO:21.
54. (Withdrawn) A method for treating inflammatory bowel disease in a patient, comprising administering to the patient an effective amount of a humanized immunoglobulin or antigen-binding fragment thereof having binding specificity for  $\alpha 4\beta 7$  integrin comprising a heavy chain and a light chain, wherein said heavy chain comprises the variable region of SEQ ID NO:19 and said light chain comprises the variable region of SEQ ID NO:21.
55. (Withdrawn) The method of Claim 54 wherein said inflammatory bowel disease is ulcerative colitis.
56. (Withdrawn) The method of Claim 54 wherein said inflammatory bowel disease is Crohn's disease.
57. (Withdrawn) A humanized immunoglobulin heavy chain or antigen-binding portion thereof comprising the variable region of SEQ ID NO:19.
58. (Withdrawn) A humanized immunoglobulin light chain or antigen-binding portion thereof comprising the variable region of SEQ ID NO:21.

59. (Previously presented) A composition comprising a humanized immunoglobulin or antigen-binding fragment thereof having binding specificity for  $\alpha 4\beta 7$  integrin comprising a heavy chain and a light chain and a physiologically acceptable vehicle or carrier, wherein said heavy chain comprises the variable region of SEQ ID NO:19 and said light chain comprises the variable region of SEQ ID NO:21.
60. (Withdrawn) A composition comprising humanized immunoglobulin heavy chain or antigen-binding portion thereof comprising the variable region of SEQ ID NO:19 and a physiologically acceptable vehicle or carrier.
61. (Withdrawn) A composition comprising a humanized immunoglobulin light chain or antigen-binding portion thereof comprising the variable region of SEQ ID NO:21 and a physiologically acceptable vehicle or carrier.
62. (New) The humanized immunoglobulin or antigen-binding fragment thereof of Claim 53 wherein said humanized immunoglobulin comprises an IgG constant region or a modified IgG constant region with reduced Fc receptor binding activity, reduced complement fixing activity, or reduced Fc receptor binding activity and reduced complement fixing activity.
63. (New) The composition of Claim 59 wherein said humanized immunoglobulin comprises an IgG constant region or a modified IgG constant region with reduced Fc receptor binding activity, reduced complement fixing activity, or reduced Fc receptor binding activity and reduced complement fixing activity.
